Lantern

Make an attractive lantern, or make a bunch of them and put them in front of the window or decorate your Christmas table with it.

Materials
- Paper Bloc PK9077 (Winter World)
- Ruler and craftknife
- Ribbons
- Glue
- LED lights (or real tealights, always put them in a glass or holder and be careful with fire).voorzichting met vuur).

Method
Choose an A5 design paper with a pattern along the length.
Fold the sheet in half lengthwise.
Put a pencil mark at 1.5 cm from the open edge or choose a line from the design.
Cut using the ruler strips of 1.5 cm from the pencil line to the fold.
You cut the last strip off along the pencil line. There are now flaps to close of the lantern with.
Paste the two flaps at the top and bottom together to close of the lantern and push it in a few times. The lantern will now bold up along the fold.
Decorate the lantern with a ribbon, white label or some flowers.

We wish you a cozy Christmas.
